NET ZERO CARBON SUMMIT 2022

Net Zero Emissions • Energy Efficiency • Resource Optimisation • Carbon Offset

MAY 19, 2022 • GRAND HOTEL BUCURESTI

Join us on **May 19, 2022** to share perspectives on the path to zero carbon, learn about organizations best practices and explore ways to collaborate on the journey to NET ZERO.

Industry leaders will debate on the social, health and economic benefits of zero carbon and zero energy projects, exploring structures, models and pathways for developing decarbonized projects, including ESG investments and the economic and environmental value of achieving operational carbon reductions.
